Volunteer for the Seacoast SeaPerch Regional Competition

The Fourth Annual UNH Seacoast Regional SeaPerch ROV Challenge will be on **Saturday, April 11th** and we need your help so that our events run smoothly.

During our morning competition session, we will have a technical check in for ROVs, two pool events, and a poster competition.

The different volunteer positions we have this year for the competition include:

**Course Judges** - Stand on the edge of the pool with a timer and clipboard and record the results from the two challenges.

**Technical volunteer** - Help check in all ROVs (confirm alterations that they may have made) and then be available to students at the triage station during the competition for repairs and alterations.

**Pool assistant** - Don’t mind getting wet? Help us out in the pool setting up the course, rescuing stray SeaPerch ROVs and resetting the courses in between rounds.

**Poster Competition Judge** – Help judge the posters the students have prepared to explain their design choices for their ROV.

**General assistant** - Help out with registration of the students, and with the organization of lunches.

If you are available to help, please contact Tara Hicks Johnson at tjohnson@ccom.unh.edu, or 603-862-1417. Indicate on the email the information requested below.

Many thanks! Tara, Rick and Claes
